In the claim:

In claim 24, line 5, change “a plurality of stator sections, with each stator section” to – a plurality of stator circular sections, with each said stator circular section—

In claim 24, line 7, change “each stator section” to –said each stator circular section—

In claim 24, line 8, after”multi-phase motor” **add** “and said stator circular sections are stacked in axial direction”

Cancel claims 11 and 20-22 (a non-elected invention. See Election filed on 5/29/01)

Allowable Subject Matter

Claims 1-3, 8-9, 14-19 and 23-27 are allowed.

Reason for Allowability

The following is an examiner's statement of reasons for allowance: the primary reason for the allowance is the including, in combination with other limitations recited in the claims, the following particular features:

A multi-phase motor having the stator yoke including a plurality of stator sections, wherein ***each stator section encompassing all the pole shoes of one phase*** and each section axially extending to define a portion of the total axial length of the stator.

Comparing to the prior-art of the record, none of the prior art references of the record, either stand-alone or in combination, has taught or suggest the above-mentioned features of each stator section having all the poles of only ***one phase***, i.e., each stator section having a number of poles for only one phase of the total number of poles for multi-phases of the motor configuration.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
